#### Thursday 31 August 2017

## Interim Management Report for the half year ended 30 June 2017

Irish Continental Group plc (ICG) the leading Irish-based maritime transport group, reports a solid financial performance for the half year ended 30 June 2017.

### **Highlights**

- Revenue up 3.7% to €156.1 million (2016: €150.5 million)
- EBITDA (pre non-trading items) down 3.0% to €29.6 million (2016: €30.5 million)
- Sale of the vessel MV Kaitaki yields profit after tax of €25.5 million
- Basic EPS up 121.4% to 22.8c (2016: 10.3c)
- Adjusted basic EPS down 9.7% to 9.3c (2016: 10.3c)
- RoRo freight volumes down 0.4% to 138,600 units (2016: 139,100 units)
- Cars carried up 2.3% in the period to 174,500 units (2016: 170,500 units)
- Container volumes shipped in the period up 6.8% to 163,100 teu (2016: 152,700 teu)
- Port lifts handled in the period up 1.7% to 147,200 lifts (2016: 144,800 lifts)
- Net cash €26.7 million at 30 June 2017 (31 December 2016 net debt €37.9 million)
- IAS 19 surplus of €5.0 million at 30 June 2017 (31 December 2016 €13.5 million deficit)
- Interim dividend 4.01 cent, up 5.0% (2016: 3.82 cent)

Commenting on the results Chairman John B McGuckian said, I am pleased to report a strong performance in the first six months of the financial year with growth in revenue of 3.7% to €156.1 million. The strong performance for the first half of the financial year is underpinned by increased car volumes and the consolidation of the strong RoRo growth over the last two years in the ferries division together with strong growth across the container and terminal division. During this period we completed the sale of the MV Kaitaki for a profit after tax of €25.5 million. Summer trading remains encouraging across all business areas, we have experienced volume growth in car and freight volumes whilst the further weakening of Sterling is offset by easing Euro fuel prices. We look forward to the arrival in mid-2018 of our new ship which will bring cost savings and significant additional earnings potential to the Group.

<sup>\*</sup>Additional information in relation to these Alternative Performance Measures ("APMs") is disclosed on page 17.

The principal drivers for the movement from a net debt position of €37.9 million at 31 December 2016 to a net cash position of €26.7 million at 30 June 2017 relate to EBITDA for the period of €29.6 million, the proceeds from the sale of the MV Kaitaki of €44.7 million and an overall positive working capital movement of €19.4 million mainly within payables as deferred revenue is at a higher level at the end of June when compared to December, ahead of the peak summer tourism trading. These positive movements are offset by capital expenditure in the period of €13.2 million which principally comprised annual vessel overhaul, expansion of DFT capacity and payments in relation to the scrubber for the new build. During the period a final dividend for 2016 amounting to €14.6 million was paid.

Total equity	191.3	93.5	144.4	
Total equity and liabilities	316.7	272.8	291.6	

The principal movements in the property, plant and equipment and intangible assets in the period relates to the disposal of MV Kaitaki which had a net book value of €15.4 million at the date of sale, depreciation in the period of €10.5 million and scheduled replacement expenditure.

Total borrowings have reduced by €38.1 million (2016: €3.5 million) since year end which relates to the loan repayment of €37.7 million (2016: €6.5 million) and lease repayments of €0.4 million (2016: €0.6 million). At 30 June 2017 the Group had not utilised any short term overdraft facilities (2016: €3.6 million).

The total net surplus of all defined benefit pension schemes at 30 June 2017 was €5.0 million in comparison to a net deficit of €13.5 million at 31 December 2016. The improvement in pension deficit since 31 December 2016 reflects an actuarial gain of €17.6 million, arising from investment performance and the positive effect of an increase in the discount rate used to value scheme liabilities.

Shareholders' equity increased to €191.3 million from €144.4 million at 31 December 2016. The movements primarily comprised of the profit for the financial period of €43.0 million and the actuarial gain arising on retirement benefit schemes and less dividends paid of €14.6 million.

### **DIVIDEND**

The Board has declared an interim dividend of 4.01 cent per ICG Unit payable on 6 October to shareholders on the register at 22 September 2017.

#### **FUEL**

	Six months to 3	0 June	Change %	Full Year
	2017	2016	_	2016
Fuel costs	€19.6m	€13.3m	+47.4%	€32.2m

Group fuel costs in the first half of 2017 amounted to €19.6 million (2016: €13.3 million). The increase in fuel costs was due to the increase in global US Dollar oil prices.

In the reporting period the Group had not engaged in financial derivative trading to hedge its fuel costs. The Group has in place a transparent fuel surcharge mechanism linked to the spot market for fuel oils. In line with the increased cost of fuel, surcharge revenues were higher.

#### **FLEET CHANGES**

On 17 May 2017, the Group announced that it has entered into a Memorandum of Agreement ("MOA") for the sale of the passenger ferry MV Kaitaki to the New Zealand ferry operator KiwiRail. The vessel was delivered to KiwiRail on 25 May 2017. The agreed consideration of €45.0 million, payable in cash, was received on delivery and will be utilised for general corporate purposes.

As previously announced in 2016, ICG has entered into an agreement with the German company Flensburger Schiffbau-Gesselschaft & Co.KG ("FSG") whereby FSG has agreed to build a cruise ferry for ICG at a contract price of €144 million. The vessel remains on schedule for delivery during 2018.

#### **FINANCING**

The Company has agreed term sheets with preferred long term finance providers and additionally received firm commitments of a revolving credit facility of €75 million.

### **RELATED PARTY TRANSACTIONS**

There were no related party transactions in the half year that have materially affected the financial position or performance of the Group in the period. In addition, there were no changes in related party transactions from the last annual report that could have a material effect on the financial position or performance of the Group in the first six months of 2017.

#### PRINCIPAL RISKS AND UNCERTAINTIES

The Group has a risk management structure in place which is designed to identify, manage and mitigate the threats to the business on an ongoing basis. The principal risks and uncertainties faced by the Group as set out in detail on pages 38 and 39 of the 2016 Annual Report are; safety and business continuity, IT systems, information security and cyber threats, commercial and market risk, commodity price risk, financial risks and retirement benefit schemes.

These risks continue to be the most likely risks to effect the Group for the second half of the year.

The Group notes the triggering of Article 50 of the EU Treaty by the government of the United Kingdom on 29 March 2017 initiating a two year process for the UK to exit the EU. This may impact on Group risks through the creation of opportunities and threats though the impact cannot be reliably measured at this point.

#### **EVENTS AFTER THE REPORTING PERIOD**

The Board has declared an interim dividend of 4.01 cent per ICG Unit in respect 2017.

There have been no other material events affecting the Group to report since 30 June 2017.

#### **GOING CONCERN**

After making enquiries and taking into account the Group's committed existing banking facilities which extend to September 2017 and firm commitments for replacement banking facilities of €75 million, the Directors believe that the Group has adequate resources to continue in operational existence for the foreseeable future. In forming this view the Directors have considered the future cash requirements of the Group's business in the context of the economic environment over the next 12 months, the principal risks and uncertainties facing the Group, the Group's budget plan and the medium term strategy of the Group, including capital investment plans. The future cash requirements have been compared to bank facilities which the Directors have negotiated. For this reason, they continue to adopt the going concern basis in preparing this half yearly financial report.

#### **AUDITOR REVIEW**

This half yearly financial report has neither been audited nor reviewed by the auditors of the Group.

#### **CURRENT TRADING & OUTLOOK**

In the period from 1 July 2017 to 26 August 2017 118,900 cars were carried on our services which is an increase of 3.1% on the same period in 2016. Foot passengers carried, which are of lesser significance to our tourism performance, increased by 1.7% from 1 July 2017 to 26 August 2017, resulting in an overall increase in total passengers of 2.2% in the period.

RoRo freight carryings in the period from 1 July 2017 to 26 August 2017 increased by 0.4% over the corresponding period with total units of 43,600.

Cumulatively in the period from 1 January 2017 to 26 August 2017, Irish Ferries carried 293,400 cars up 2.7% while the number of passengers carried increased to 1,174,900 passengers, up 1.9%, compared with the same period last year. In the Roll on Roll off freight market, Irish Ferries carried 182,200 units, a decrease of 0.2% compared with the same period in 2016.

In the period from 1 July 2017 to 26 August 2017, the Container and Terminal division container carryings were 48,400, an increase of 4.1% on the corresponding period last year. Port lifts were 45,100, an increase of 2.5% compared to the same period last year.

Cumulatively in the period from 1 January 2017 to 26 August 2017, container volumes shipped were up 6.2% at 211,500 teu compared with the same period last year. Port lifts rose by 1.9% to 192,300 lifts year on year.

In the absence of unforeseen circumstances, the outlook for the remainder of the year is for a continuation of the overall business momentum seen to date.

#### FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements. These statements are made by the Directors in good faith based on the information available to them up to the time of their approval of this report. These forward-looking statements should be treated with caution due to the inherent uncertainties, including both economic and business risk factors, underlying any such forward-looking information.

This report has been prepared for the Group as a whole and therefore gives greater emphasis to those matters which are significant to Irish Continental Group plc and its subsidiaries when viewed as a whole.

#### 1. General information

The Group Condensed Financial Statements are considered non-statutory financial statements for the purposes of the Companies Act 2014 and in compliance with section 340(4) of that Act we state that:

- the Group Condensed Financial Statements for the half year to 30 June 2017 have been prepared to meet our obligation to do so under the Transparency (Directive 2004/109/EC) Regulations 2007 (as amended);
- the Group Condensed Financial Statements for the half year to 30 June 2017 do not constitute the statutory financial statements of the Group;
- The figures disclosed relating to 31 December 2016 have been derived from the statutory financial statements for the financial year ended 31 December 2016 which were audited, received an unqualified audit report and have been filed with the Registrar of Companies; and
- The interim figures included in the Group Condensed Financial Statements for the six months ended 30 June 2017 and the comparative amounts for the six months ended 30 June 2016 have been neither audited nor reviewed.

Certain financial measures set out in our Half Yearly Report to 30 June 2017 are not defined under International Financial Reporting Standards (IFRS). Presentation of these Alternative Performance Measures ("APMs") provides useful supplementary information which, when viewed in conjunction with the Company's IFRS financial information, allows for a more meaningful understanding of the underlying financial and operating performance of the Group. These non-IFRS measures should not be considered as an alternative to financial measures as defined under IFRS. Descriptions of the APMs included in this report are disclosed below.

<sup>\*</sup>Non-trading items are material non-recurring items that derive from events or transactions that fall outside the ordinary activities of the Group and which individually, or, if of a similar type, in aggregate, are separately disclosed by virtue of their size or incidence.

## 2. Accounting policies

The Group Condensed Financial Statements for the six months ended 30 June 2017 have been prepared in accordance with the Transparency (Directive 2004/109/EC) Regulations 2007 (as amended), the related Transparency Rules of the Central Bank of Ireland and with IAS 34 'Interim Financial Reporting' as adopted by the European Union.

The accounting policies and methods of computation applied in preparing these Group Condensed Financial Statements are consistent with those set out in the Group Annual Report for the financial year ended 31 December 2016, which is available at <a href="www.icg.ie">www.icg.ie</a>.

## 2. Accounting policies - continued

The Group did not adopt any new International Financial Reporting Standards (IFRS) or Interpretations in the period that had a material impact on the Group Condensed Financial Statements for the half year.

There are a number of new standards, amendments to standards and interpretations that are not yet effective and have not been applied in preparing the Group Condensed Financial Statements. The principal new standards, amendments to standards and interpretations, none of which have been EU endorsed, are as follows:

Title	Effective date – periods beginning on or after
IFRS 9 Financial Instruments (2009 and subsequent amendments in	1 January 2018
2010 and 2013)	
IFRS 15 Revenue from contracts with customers	1 January 2018
IFRS 16 Leases	1 January 2019

IFRS 15 Revenue from contracts with customers and IFRS 9 Financial Instruments (2009 and subsequent amendments in 2010 and 2013) are not expected to have a material impact on the Group's financial statements.

IFRS 16 Leases sets out the principle for the recognition, measurement, presentation and disclosure of leases for both lessee and lessor. It eliminates the classification of leases as either operating leases or finance leases and introduces a single lessee accounting model where the lessee is required to recognise assets and liabilities for all material leases that have a term of greater than a year. The Group is currently evaluating the impact that IFRS 16 will have on its financial statements. On adoption of the standard the effects on the Group's financial statements will be dependent on the transition option chosen, the contractual terms at date of adoption and the Group's marginal borrowing costs. The principal known material long term leases that are expected to exist on the latest adoption date relate to long term leases of property. The application of IFRS16 to these leases is not expected to have a material effect on Group net assets, but may have a material effect individually on lease asset totals and lease liability totals. The effects on Group profits are also expected to be immaterial on a net basis with higher depreciation and interest charges largely offset by a reduction in operating expenses. IFRS 16 is expected to be endorsed by the EU during 2017.

Other than the changes to assumptions used in relation to the valuation of retirement benefit obligations there have been no material changes in estimates in these half yearly financial information based on the estimates that have previously been made in the prior year financial statements to 31 December 2016.

## 3. Segmental information: Analysis by class of business

The Board is deemed the chief operating decision maker within the Group. For management purposes, the Group is currently organised into two operating segments; Ferries and Container & Terminal. These segments are the basis on which the Group reports internally and are the only two revenue generating segments of the Group. The principal activities of the Ferries segment are the operation of combined RoRo passenger ferries and chartering of vessels. The principal activities of the Container & Terminal segment are the provision of door-to-door and feeder LoLo freight services, stevedoring and other related terminal services. There has been no change in the basis of segmentation or in the basis measurement of segment profit or loss in the period. Under IFRS 8: Operating Segments, the Group has determined that the operating segments are (i) Ferries and (ii) Container and Terminal.

In September 2016 an interim dividend of 3.82 cent per ICG Unit was paid for the year ended 31 December 2016.

## 5. Non-trading items

On 17 May 2017, the Group completed the sale of the vessel MV Kaitaki to KiwiRail of New Zealand.

The MV Kaitaki which was commissioned by and delivered to ICG in 1995 became surplus to ICG's operational requirements following delivery of our cruise ferry Ulysses in 2001. MV Kaitaki has been on charter outside the Group since 2002, most recently to the buyers KiwiRail who operate the vessel in New Zealand.

#### 10. Tax

Corporation tax for the interim period is estimated based on the best estimates of the weighted average annual corporation tax rate expected to apply to each taxable entity for the full financial year.

The Company and subsidiaries that are within the EU approved Tonnage Tax jurisdictions have elected to be taxed under the tonnage tax scheme. Under the tonnage tax scheme, taxable profit on eligible activities is calculated on a specified notional profit per day related to the tonnage of the ships utilised.

## 11. Financial instruments and risk management

The Groups activities expose it to a variety of financial risks including interest rate risk, foreign currency risk, liquidity risk and credit risk. The Group's funding, liquidity and exposure to interest and foreign exchange rate risks are managed by the Group's treasury and accounting departments. A combination of derivative financial instruments and treasury management techniques are used to manage these underlying risks. These interim condensed financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the 2016 Annual Report. There have been no changes to the risk management procedures or policies since the 2016 year end.

#### Fair value hierarchy

The Group has adopted the following fair value measurement hierarchy for financial instruments:

- Level 1: guoted (unadjusted) prices in active markets for identical assets and liabilities.
- Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: techniques that use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The fair value of financial assets and financial liabilities that are carried in the Condensed Consolidated Statement of Financial Position at fair value are classified within Level 2 of the fair value hierarchy as market observable inputs (forward rates and yield curves) are used in arriving at fair values. There have been no movement between levels in the current period.

Valuation techniques and inputs used are as described in Note 21 of the 2016 Annual Report.

## 11. Financial instruments and risk management - continued

Fair value of financial assets and financial liabilities measured at amortised cost

At 30 June 2017 the carrying value and fair value of borrowings was €42.0 million and €42.1 million respectively (31 December 2016: €80.1 million and €80.5 million respectively), which consists of the bank overdraft, loans and leases in Note 9.

The fair value of borrowings at 30 June 2017 was higher than the carrying value reflecting a reduction in the estimated discount rate of the Group's own credit risk.

The fair value of the following financial assets and financial liabilities approximate their carrying value:

- Trade and other receivables
- Cash and bank balances
- Trade and other payables

Fair value of derivative financial instruments

Derivative financial instruments are measured in the Condensed Consolidated Statement of Financial Position at fair value. The fair values of derivative financial instruments are based on market price calculations using financial models based on market observable rates.

The fair value of derivative financial instruments was €nil as at 30 June 2017 (31 December 2016: a liability of €0.2 million) which consisted of interest rate swaps. All cash flow hedges were effective and fair value losses of €nil (31 December 2016: losses of €0.1 million) were recorded in other comprehensive income and net settlements amounted to €0.2 million (31 December 2016: €0.4 million).

The Group utilised interest rate swaps during the period ended 30 June 2017 and year ended 31 December 2016 whereby it swapped its entire EURIBOR floating interest rate exposure under the amortising term loan facility for fixed interest rates. This contract terminated during the period and the notional capital amount outstanding on this contract at 30 June 2017 was €nil (31 December 2016: €37.7 million). Notional amounts for all future periods match the amortising schedule of the loan agreement. The estimated fair value of €nil (31 December 2016: €0.2 million) has been accumulated in equity.

The Group utilises currency derivatives to hedge future cash flows in the management of its exchange rate exposures. At 30 June 2017 and 31 December 2016 there were no material outstanding forward foreign exchange contracts.

#### 12. Retirement benefit schemes

Retirement benefit scheme valuations have been updated at the half year. Scheme assets have been valued as per investment managers' valuations at 30 June 2017. In consultation with the actuary to the principal group defined benefit pension schemes, the discount rate used in relation to the pension scheme liabilities is 1.90% for Euro liabilities (31 December 2016: 1.70%) and 2.45% for Sterling liabilities (31 December 2016: 2.50%).

At 30 June 2017 the Group's total obligation in respect of defined benefit schemes totals €273.8 million (31 December 2016: €288.3 million). The schemes held assets of €278.8 million (31 December 2016: €274.8 million), giving a net pension surplus of €5.0 million (31 December 2016: €13.5 million net deficit).

The principal assumptions used for the purpose of the actuarial valuations which are reflective of market conditions that exist at 30 June 2017, were as follows:

	Half year ended			Year ended

Schemes in deficit	(2.9)	(35.7)	(15.9)
Net surplus / (deficit)	5.0	(32.8)	(13.5)

The improvement in pension deficit since 31 December 2016 reflects an actuarial gain of €17.6 million (31 December 2016: actuarial loss €9.6 million), arising from investment performance and the positive effect of an increase in the discount rate used to value scheme liabilities.

No provision has been made against scheme surpluses as the Group believe having reviewed the rules of the relevant schemes, the surplus will accrue to the Group in the future.
